Our Laboratories Assets

Molecular & Supramolecular Functional Nanomaterials - Chemical Biology

- [Structural and Supramolecular Chemistry](#)
- [Functional Nanomaterials of Organized Structure](#)
- [Natural Products Synthesis & Bioorganic Chemistry](#)
- [Chemical Biology of Natural Products and Designed Molecules](#)
- [Molecular Computational Chemistry](#)

Nanochemistry For Solar Energy & Environmet : Applications - Simulations Technologies

- [Nanotechnological Processes For Solar Energy Conversion Environmental Protection](#)
- [Solar Energy Nanomaterial Based Advanced Catalytic - Photocatalytic Environmental Technologies, Green Chemistry Processes & Environmental Analysis](#)
- [Developement Of Novel Luminescence Methods For Analytical Applications](#)
- [Statistical Mechanics and Complex Dynamical Systems](#)

Nanostructured, Self-Asembled & Complex Materials - Membranes

- [Transport phenomena in polymers](#)
- [Membrane & Microporous Materials for Environmental Separations \(MESL\)](#)
- [Molecular Thermodynamics and Modelling of Materials Laboratory](#)
- [Electronic Spectroscopy Laboratory](#)
