### Group Publications

#### Molecular & Supramolecular Nanofunctional Materials

- [Structural and Supramolecular Chemistry](#)
- [Nanomaterials of Organized Supramolecular Structure](#)
- [Molecular Thermodynamics and Modelling of Materials Laboratory](#)
- [Luminescence of Organic Compounds and Applications in Analytical Chemistry](#)
- [Transport of matter phenomena in polymers](#)
- [Statistical Mechanics and Non-linear Dynamics](#)
- Molecular Computational Chemistry

#### Nanochemistry - Non-polluting Technologies - Energy

- [Membrane & Microporous Materials for Environmental Separations \(MESL\)](#)
- [Photo-redox Conversion and Storage of Solar Energy](#)
- [Catalytic - Photocatalytic Processes \(Solar Energy - Environment\)](#)
- [Electronic Spectroscopy Laboratory - Applications to Supramolecules and Nanostructures](#)
- [Isotopic Hydrology](#)
- [Trace Elements in the Environment](#)

#### Chemical Biology

- [Natural Products Synthesis & Bioorganic Chemistry](#)
- [Chemical Biology of Natural Products and Designed Molecules](#)
